

**SARASOTA MEMORIAL HOSPITAL
:60**

There are many reasons why people choose to live in the Suncoast area, and specifically Sarasota county. Our sparkling beaches, sunny climate and vibrant cultural scene are all things that we residents sometimes take for granted. Well...there's another jewel in the crown of Sarasota, that provides comfort and peace of mind to thousands of residents each year. That's our own Sarasota Memorial Hospital. Sarasota Memorial is truly a "community" hospital. It's the area's only publicly owned hospital. That is...they are not investor-owned. Instead, they're governed by the nine-member elected Sarasota County Hospital Board...just one of the reasons they continue to be "top" in the region for quality and patient satisfaction. And... we're fortunate that Sarasota Memorial is a full-service hospital...with specialized expertise in heart care, cancer and neuro-science services and a neo-natal Intensive Care Unit . So...don't take it for granted....take a closer look at your Sarasota Memorial Hospital. It's another good reason to call Sarasota home. You can visit their website at smh.com.
